WORK EXPERIENCE

Mobile App Developer (Onsite)

Bonitas ICT, Awka, Nigeria

02/2021 – Present

- Accomplished one of the company's key projects for 2021 by developing a hybrid mobile app for the Anambra State Housing groundbreaking event, using Flutter. This secured approval and advancement onto the next phase of contract between the company and the State Government.
- Perform regular checks on existing code base to implement necessary upgrades, resolve issues, and optimize overall system performance.
- Worked closely with the web development team and participated in building client-facing web solutions including different company entity websites using Next JS, Angular, Node JS, Sass, MySQL, and Postgres.
- Mentor interns designated to learn mobile app development by guiding them through best approaches in logical thinking, writing of clean codes, and standard workplace conducts.
- Perform thorough brainstorming to provide apt methodologies for piloting the development cycle process of the mobile app team.
- Collaborate with the UI/UX designer by interpreting and translating UI/UX prototypes into high integrity finished products.

Consulting Mobile App Developer (Remote)

Cousant Connect, Lagos, Nigeria

01/2021 – Present

- Work based on assigned role per time as a mobile app developer for Clients of Cousant Connect under a strict non-disclosure policy.
- Collaborate with the existing team as allowed by each Client in developing industry-leading mobile app solutions according to the Client's specifics.
- Demonstrated expertise in using Flutter, bloc state management, and MVI architecture to build high-quality and scalable software solutions.
- Completed two Client contracts so far with over 95% client satisfaction and recommendation.

Mobile App Developer (Remote)

The OakSoft, Lagos, Nigeria

12/2020 – 01/2022

- Collaborated with the team via JIRA software and completed all assigned tasks as per ongoing software development sprints. Delivered before deadlines most of the time.
- Maintained active communication with the Client thereby comprehending and satisfactorily implementing their precise ideas and requirements.
- Obtained UI/UX specifications from the UI/UX designer and after proper analysis, coded them into actual and marketable products using Flutter technology.
- Received multiple API endpoints from the back-end developer and securely integrated them.
- Worked closely with existing team in building and launching a cross-platform fintech solution that features flexible investment and packages. Specifically responsible for building the mobile app using Flutter domain-driven design pattern.

Full Stack Web & Mobile App Developer (Onsite)

Oil Perfumes Nigeria, Awka, Nigeria

01/2019 – 01/2021

- Independently developed, launched, and optimized the company's web app [www.oilperfumes.ng] using HTML, CSS, Node JS, Angular, Sass, MySQL, & PHP.
- Independently developed, launched, and optimized the company's Native Android mobile app using Kotlin, and iOS mobile app using React Native.
Native Android: <https://play.google.com/store/apps/details?id=oilperfumes.com.ng>
iOS app: <https://apps.apple.com/app/id1475365053>
- Integrated third-party services like Paystack, Mail Gun, and live chat.

Software Engineer (Onsite)

Progxap Ltd (Devamplify Hub), Awka, Nigeria

03/2018 – 12/2018

- Worked with team to build a solution [<https://faithora.com>] that caters to a broad range of services for churches. Completed tasks by developing the hybrid mobile app using Ionic 3 and Vanilla PHP for the backend.
- Worked with team to develop a multi-level marketing web solution. Specifically built the front end using Angular and the back end using raw PHP.
- Mentored interns through building small software products from ideation stage to completion. Assigned interns marked significant growth after mentorship.
